

Av-DEC and GLOBALJET Services Announce Partnership to Provide Aircraft Corrosion Theory, Identification, Treatment and Prevention Training Courses

Aviation Devices & Electronic Components, LLC (**Av-DEC**) and **GLOBALJET Services**, Inc. announce collaboration to offer on-location and virtual training courses that feature comprehensive aircraft corrosion awareness and prevention methods.

Industry leaders in aviation training and aircraft corrosion-prevention solutions

Both companies have adapted to the current working environment by creating training courses that directly mirror the experience of having hands-on training. **Av-DEC** and **GLOBALJET Services** have combined their complementary skill-sets to create a training course that highlights valuable insights, corrosion-prevention

knowledge and specific solutions to provide a fundamental learning experience and unmatched value to the end-user.
